Fiber Processing Policy and Payment Agreement

Three Points Fiber Mill is dedicated to providing you with the highest quality finished product possible while meeting your exact specifications. Our farm-to-finish knowledge and sustainable practices help us deliver a superior product we and our customers can be extremely proud of. It's important to realize that the quality of the fiber provided has a direct impact on the quality of the finished product. We can't make 30 micron fiber feel like 17 micron yarn. As the saying goes, "You can't make a silk purse out of a sow's ear".

We strive to spin all fibers without blending unless specifically requested. Occasionally, some fiber characteristics such as curvature/crimp or extremely low micron fiber size may require additional fibers to be blended to achieve satisfactory results. Three Points Fiber Mill will contact you immediately should your fiber require blending to achieve the desired final product. If you do not want your fiber blended we will return it to you and only charge you for the processing completed, generally the pin-drafted roving fee.

We adhere to the International Yarn Standards for yarn weights, a link to which can be found on our website. We strongly suggest sending a sample comparable to the yarn you desire roughly 2-3 feet long so we can match it. If you find that the end product doesn't meet your expectations you will not be obligated to pay the processing fees, however the product you refuse will become the property of Three Points Fiber Mill and will not be returned to you.

Three Points Fiber Mill reserves the right to refuse any fiber with excessive vegetative matter. Three Points Fiber Mill will refuse any fleece with insect infestation.

Payment Policy:

1. 50% of estimated cost due before order can be processed, remaining balance due upon completion.
 - a. 10% per day penalty will be applied to unpaid balances over 30 days. No finished product will be delivered until balance is paid in full.
